

ON THE JOB

Guillermo Ledezma

CLASS OF 2016 & 2022

LINKEDIN PROFILE

**Undergrad &
Graduate Major:**
Management
Information Systems

Job:
System Analyst at
the University
System of Georgia

WHAT DO YOU DO ON A DAY-TO-DAY BASIS?

"My responsibilities are designing, creating, and enhancing application program solutions for all 26 universities that are part of the USG Information System. Yes, GCSU is an institution in our system."

DO YOU HAVE ADVICE FOR STUDENTS?

"If you are interested in working for data and applications roles, my advice would be to take your in-class projects seriously, create your own projects that can be shared, and ask questions to your peers and professors even if they are "dumb" questions. Lastly, go to the business luncheons, and career fairs. Network like crazy!"
