

ON THE JOB

Ben Archer

CLASS OF 2013

LINKEDIN PROFILE

Major:
Environmental
Science

Job:
Project Manager at
Georgia Bridge and
Concrete, LLC & G.P.'s
Enterprises, Inc.

WHAT DO YOU DO ON A DAY-TO-DAY BASIS?

I oversee civil construction projects including roadway, bridge and wall construction for State and Local governments, manage accounts for payment, maintain critical path schedules, schedule subcontractors work and oversee environmental compliance on projects and traffic control operations.

DO YOU HAVE ADVICE FOR STUDENTS?

Hydrology and Soil Systematics play a direct role in providing critical knowledge as a basis for our industry. The GIS certificate knowledge is also a great asset to have and is becoming higher and higher in demand.
