

Program Deactivation Request

GCSU Guidelines for Completing the Proposal for Submission

Use the guidelines below in addition to the [*Degree Proposal and Curriculum Proposal Cover Sheet*](#) to prepare the proposal for a **Program Deactivation Request**. Review these guidelines to support proposal development. The finalized proposal should be created in a Word document or pdf using a numbered format including all requested information for items 1 through 19 in the order as described in the guidelines. Doing so will support both the university governance process and successful entry into the USG Academic Proposal Submission Portal.

Guidelines Provided by USG

USG Policy

Board Policy 3.6.2 states institutions must notify the University System Office (USO) at least two years prior to a formal request for termination of their intent to discontinue a degree, major, or certificate. The policy also states an institutional President may place an academic program on a temporary suspension, not to exceed two years. This form may be used for either of these purposes.

For more information on USG policy, please visit the following page:

https://www.usg.edu/academic_programs/changes/degree_and_or_major_termination_process

Note: **This form should NOT be used if the institution wishes to close the program only in certain modalities/sites.** In such instance, the [Program Delivery/Location Change request form](#) should be completed.

SACSCOC Policy

Program Deactivation is considered a substantive change (a type of program closure). Be sure to review the SACSCOC Substantive Change Policies and Procedures (link below) and follow any institutional processes related to substantive changes so that your institution can also submit the request to SACSCOC. <https://sacscoc.org/accrediting-standards/substantive-changes/>
